MONDAY, DECEMB'R 20, 1886.

THE BAD SPOT.

The Hawaiian public must soon cry out to be given a rest from the stale exhibits of Hawaiian finances, combined with idle and mischievous speculations on the future of this country, dished up in San Francisco papers. There was a novelty about the initial spotterings of a disappointed man, but now even that charm is gone and the people on the Coast must be getting sick of Hawiiian politics. If the professedly independent papers of Honofulu tried earnestly to reflect the true state of affairs at home, they would not only have some degree of influence now with the powers that be, but would form and consolidate a public opinion that might avail great things for reform in the future.

There is enough influence disposed toward good government in Honolulu, if it was only concentrated and put in action at the appropriate seasons, such sessions, to have prevented much of helf.

From San Francia, positione Revets, Saturday the nime. the mismanagement and had legislation which have disgraced the country during the past four years. First to be attacked in the defenses of mismanagement and had legislation — W.H. Bire, R. A. Mache, A. R. H. Swift, Capt J. Rose Jr., C. M. White, J. P. Parker and wife, Miss Low, Miss Hook, Charles, Capt. S. Nocean, Miss Mary Fredenburg, M. White, and about St. dech. attacked in the defenses of misgovernment is that ground occupied by a mercenary class of white men who are always ready to barter principle for Government employment or patronage. Instead of the public being treated to eclectic thunder against evils alleged to be part of the result of native Hawaiian ascendency there should be cool investigation of the amount of responsibility attaching to self-seeking foreigners for the present state of affairs in this country. Time and again during the last four years has public indignation been aroused over acts directly traceable to the machinations of foreign adventurers. Repeatedly have even the batteries of public opinion been silenced by the cowardly capitulation of conductors of the press to crafty politicians who put decoys before them. It is to such exotic rottenness that the decay of the state is attributable as much as to indigenous corrup-

Let the foreign residents and taxpayers of Hawaii crush the grovelling creatures that raise their foul heads among themselves, and then they will be in a position to present a strong front against the tide of folly, improvidence and corruption that has long since begun to threaten the independence, the prosperity and the peace of these beautiful isles.

ARBOR DAY.

San Francisco's first Arbor Day was thousand people assembled to do the tree-planting or watch it done, on Yerba Buena Island and the Presidio. An address written by Gen. Vallejo was read by Prof. Campbell, superintendent of the Oakland public schools, Mr. Joaquin Miller read a poem composed for the occasion, and Mr. Adolph Sutro, the head man of the movement, delivered a neat speech. Several thousands of from Koslan. Arbor Day will be inaugurated in Hosuccess.

NOTES AND COMMENTS.

The best conundrum in the Bulletin of Saturday was its item about electric lights. The soggestion to illuminate EVERY MORNING the streets with half of 300 "incandescent" lights is on a par with the Premier's idea of strike a match and there

The Union Iron Works, San Franas you Personness of one Personness C. # cisco, in likely to get the contract for building one of the new steel cruisers for the United States navy. As it would employ a thousand men for eighteen months, the Coust is to be congratulated on getting this heavy

> A Californian has invented an attachment for street cars, which announces the name of the next street, as well as shows an advertisement at each crossing. It is being applied to the Market street cable railway, and will likely be used on the Honolulu street railway when built.
